E: shreyasgms@gmail.com

A: Mumbai, India

## PROFILE

Pursuing Bachelor of Technology in field of Computer Science with specialization in Artificial Intelligence. Creative, organized, curious and goal driven tech enthusiast who likes to learn new things and demonstrates strong work ethic.

I believe in working as a team and finding creative yet efficient ways to a solution. I hope to get practical hands-on experience in this industry while, at the same time contributing towards the development of society, organization and myself as an engineer.

## PROJECTS

### ● YouTube Video Sponsor Detection Using Subtitles

Tools: HuggingFace, Colab, PyTorch

Made a custom dataset from scratch by scraping video subtitles using Youtube Data API. Trained DistilBERT transformer network.

### ● Selfcare Android Application

Tools: Android Studio, After Effects

An app with login, links to fitness related videos & relaxation music, how to's and benefits of yoga poses and scribble.

### ● Restaurant Management System

Tools: Qt

A complete solution to a restaurant's software needs GUI & implemented using only Linked Lists.

## EXPERTISE

Python	_____●
C++	_____●
Java	_____●
HTML   CSS	_____●
React Native	_____●

## CERTIFICATIONS

Coursera: Programming for Everybody (Python), University of Michigan, February 2021

LinkedIn Learning: Practical Engineering, November 2022

## EDUCATION HISTORY

### ● GSMS High School | 2016 - 2018

- 10th grade SSC 90.6%

### ● Mithibai College | 2018 - 2020

- 12th grade HSC 76%

### ● NMIMS, MPSTME | 2020 - Present

- B.Tech CS [AI] - 6th Semester [CGPA: 3.77/4]

## SKILLS SUMMARY

### ● Libraries & Frameworks

Matplotlib, NumPy, Pandas, Opencv, Keras, Root, TensorFlow

### ● Tools

Jupyter, AutoCAD, 3DS MAX, Blender, Android Studio, Heroku, MySQL, Unity, Unreal, Qt

### ● Concepts

OOP, DSA, DL, ML, DBMS, NLP, Game Development
